

# CorrosionX ReelX

## Product Description

ReelX The best thing to happen to your fishing reel since you took it out of the box!

ReelX is a high end extreme-pressure reel lubricant that virtually eliminates wear, disrupts existing corrosion and prevents new corrosion or rust from forming.

ReelX is perfect choice for all spinning and casting reels. Starting with the revolutionary CorrosionX core technology, we added a package of extreme pressure additives specifically engineered to make your fishing reels achieve their ultimate performance.

Unmatched lubrication factor of 0,35 more than 3 times as slippery as engine oil.

Extreme corrosion protection. Super fast penetration. Stops electrolysis the moment you apply it !

ReelX contains no wax, tar, silicone or other solids, so it will never gum-up. ReelX displaces moisture, and won't harm monofilament.

- Improves Reel Performance
- Stops/Prevents Rust & Corrosion
- Will Not Harm Plastic, PTFE or Monofilament
- Will have NO effect on your catch rate

## Application Suggestion

Lubricate and treat also equipment of the listed manufacturers

- Penn Fishing Tackle Manufacturing Company
- Shimano
- Accurate Fishing Products
- Bauer Premium Fly Reels, Inc.
- Okuma Fishing Tackle Corporation
- Zebco, a division of Brunswick Corporation

## **Direction of use**

---

Apply sparingly from witch hat bottle into mechanisms. You need VERY little. This is not your run of the mill lubricant ! Thinly wipe down exterior of reels, tackle, guides and all SS or plated Steel. Does not harm carbon fibre, any plastics, monofilament, plexi glass, Vynil, leather, varnish, paint , rubber or neoprene!

## **Safety brief / precautions**

---

With 7 % the Paraffin based ReelX is extremely low on Volatile Organic Contence VOC . Compared to products (available from DIY supermarkets and average tackle shops) sporting between 60% and 75% VOC. ReelX sister product CorrosionX is classified by NZ MPI industries as C11 , same as Lanolin.

It is non flammable. It will not damage your eyes and irritates skin in only very rare cases. Still, do not swallow and keep away from children. For full safety brief please download the SDS sheet from this website.
